1. If both players cooperate, they both get 3 points.
2. If both players defect, they both get 1 point.
3. If one player defects and the other cooperates, the one that defects gets 5 points and the one that cooperates gets 0 points.

'Appalling' waits for ambulances in England leaving lives at risk

Exclusive: Royal College of Emergency Medicine president says NHS is breaking its agreement to treat sickest in a timely way  
The staff, this is heartbreaking - senior doctor's view on crisis  
I feel so let down - long waits for ambulances on the south-west

**NHS 'on its knees' as ambulance response times for life-threatening calls rise to record high**

Average response time to deal with Category 1 cases – such as cardiac arrest – is now nine minutes and 20 seconds, with rises across all categories.
